HSA

Simple set up

Seamless implementation

Superior service

Further makes HSAs easy for you - and your clients

Health savings accounts (HSAs) are on the rise as an important part of employee benefit packages because they provide a financial cushion to help employees with increasing deductible limits, while keeping costs down for employers. HSAs allow employees to save on medical expenses tax-free while companies save money with reduced payroll taxes - a win-win for both.

Outstanding support for you and your clients

Your clients and employees receive 24/7 support to ensure they're getting the most out of their HSAs. Our high-touch service model provides one-on-one training sessions and a whole team of account executives and customer service representatives. This ensures seamless administration and empowers employees to take an active role in their health care spending decisions.

Employers save money, time

Further's HSA plan is easy to implement and offers valuable benefits, including:

Extra savings – Not only will employers see reduced payroll taxes, they could also save on their portion of health insurance premiums.

Reduced administration – Employees can manage their account from any mobile device and enjoy the convenience of a simple claims and reimbursement process.

Enhanced benefits package – Employers are better able to attract and retain employees with a product that helps employees pay for and save for health care now and in the future.

User-friendly tech and tools make it easy for your clients to manage their HSAs 24/7

- Portals - broker, employer, member
- Further mobile app
- Debit card - simple, seamless and smart. Funds draw from designated health spending account(s) automatically. Free cards with no fees.
