Healthcare Decision Support Tools

This page contains links to several tools that you can use to make educated and informed decisions when it comes to your health care spending and saving decisions.

As of April 2, 2018, Further no longer offers Wallet Doc. However, we've made the resources below available to help our members make health care spending and saving decisions.

Visit the doctor without ever leaving the couch. Get advice and diagnosis on over 300 ailments.

When you use Doctor on Demand, you speak to board-certified doctors and therapists over live video using your computer or mobile device. After learning more about your history and symptoms, the doctor performs an exam, and may recommend treatment that could include prescriptions and lab work.

Doctor on Demand can treat many common mental and physical health conditions:

- Cold & Flu
- Depression & Anxiety
- UTI
- Skin & Eye Issues
- Allergies
- Urgent Care & more

You'll pay less than urgent care and in-pharmacy clinics, and they accept most major insurance. Visit [Doctor on Demand](#) to learn more about this convenient and affordable service.

Name a price that works for your budget on cosmetic and minor procedures as vendors bid for your business.

Pick Your Price lets you to choose your desired procedure when and where you want and at a price that you can afford. You are matched with a pre-screened Certified Provider in your area who meets your criteria.

You'll know the cost of each procedure up front, and they can save you 20-80% on many HSA and FSA approved procedures, including MRI Scans, CT Scans, and tooth extractions.

Try Pick Your Price risk-free. If you are not happy with the Provider you're paired with, you're entitled to a full refund of your deposit (if applicable).

Health Savings Account (HSA) Contribution Calculator

This Health Savings Account (HSA) calculator determines the amount you are allowed to contribute to your HSA account for the current tax year. The maximum amount of money that can be deposited into an HSA depends on several factors including the account holder's age, and whether the person has single or family coverage.
